SUMMARY

A highly motivated, self-taught developer seeking junior-level front-end developer positions. Having 2 years of work experience in a tech company as a sale engineer, and an adequate understanding of both front-end and back-end technologies.

WORK EXPERIENCE

2020 – Present

Self-taught Web Developer

With a particular interest in computer and technology, I decided to switch my career from being a Sales Engineer to a Web Developer. So far, my learnings have been mainly from 2 sources: FreeCodeCamp website and Udemy's courses.

Udemy's course:

- Web Development Bootcamp

FreeCodeCamp website:

- Responsive Web Design
- Javascript Algorithms and Data Structures
- Front-End Development Libraries

2019 – 2020

Sale Engineer, *Astro Serve (Thailand) Co., Ltd.*

Astro Serve is an audio-visual system integration service provider company, specializing in Unified Audio-Visual Control Systems.

- Design and install audio-visual systems for clients off and on site.
- Connect the business with clients and partners in Thailand and overseas.
- Responsible for creating various documents including quotations, proposals, user manual, system diagram, graphical brochure, etc.
- In charge of reporting monthly sales to the main branch.
- Work with foreign supervisors/colleagues in Thailand, Japan and Vietnam.
